

## State Planning Standards Checklist for Annex N, EOC Direction & Control

**Jurisdiction(s):** City of Beaumont

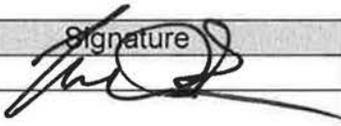

**Annex Date:** 7/30/2013      **Date of most recent change, if any:** Major Update

(The date which appears on the signature page)

**Note:** The annex will be considered Deficient if the *italicized* standards are not met.

<b>This Annex shall:</b>	<b>Section/paragraph</b>
<b>I. Authority</b>	
N-1. Identify local, state, and federal legal authorities pertinent to the subject of the annex in addition to those cited in the basic plan.	I
<b>II. Purpose</b>	
N-1. Include a purpose statement that describes the reason for development of the annex.	II
<b>III. Explanation of Terms</b>	
N-1. Identify acronyms and abbreviations and explain terms used in the annex.	III
<b>IV. Situation &amp; Assumptions</b>	
N-1. <i>Include a situation statement related to the subject of the annex.</i>	IV.A
N-3. <i>Include a list of assumptions used in planning for direction and control during emergency situations.</i>	IV.B
<b>V. Concept of Operations</b>	
N-4. <i>Outline a general concept for emergency operations that includes NIMS concepts.</i>	V.A.
N-4. <i>Describe how incident command operations will be conducted.</i>	V.B
N-5. <i>Describe the functions performed by the EOC and how they will be carried out.</i>	V.C
N-6. <i>Describe the interface between ICS and the EOC</i>	V.D
N-7. <i>Include a list of actions to be taken during various phases of emergency management to ensure adequate direction and control during emergency situations</i>	V.E
<b>VI. Organization &amp; Assignment of Responsibilities</b>	
N-8. <i>Describe the organization that will carry out direction and control of emergency operations.</i>	VI.A
N-9. <i>Include assignments of direction and control tasks to departments, agencies, or individuals by position.</i>	VI.B
<b>VII. Direction &amp; Control</b>	
N-10. <i>Identify by position the individuals who will provide direction and control for emergency operations and supervise emergency facilities.</i>	VII
<b>VIII. Readiness Levels</b>	
N-10. <i>Describe actions relating to the direction and control function to be taken at various readiness levels.</i>	VIII
<b>IX. Administration &amp; Support</b>	
N-11. <i>Describe local emergency facilities and their capabilities.</i>	IX.A
N-12. <i>Explain policies on record keeping during emergency operations.</i>	IX.B
N-13. <i>Outline requirements for reporting during emergency operations</i>	IX.C

<b>X. Annex Development &amp; Maintenance</b>	
N-14. Specify the individual(s), by position, responsible for developing and maintaining the annex.	X.A
N-14. Make reference to the schedule for review and update of annexes contained in the Basic Plan.	X.B
<b>XI. References</b>	
N-15. Identify references pertinent to the content of the annex.	XI
<b>Other</b>	
<i>N-1-A-1. Describe or depict the EOC organization</i>	App. 1, Tab A
<i>N-1-B-1. Make provision for maintenance of an EOC Staff Roster</i>	App. 1, Tab B
<i>N-1-C-1. Include a checklist for activation/deactivation of the EOC</i>	App. 1, Tab C
<i>N-1-D-1. Summarize how the EOC operates when activated.</i>	App. 1, Tab D
N-1-E. Describe the forms used in the EOC to record operational events.	App. 1, Tab E
N-1-E-H. Describe the forms used in the EOC for message traffic.	App. 1, Tabs F, G, H
<i>N-2-1-3. Describe and provide the format for reports prepared by the EOC during emergency operations.</i>	App. 2 App. 3

**ANNEX N**  
**DIRECTION AND CONTROL**

**I. AUTHORITY**

Refer to Section I of the Basic Plan for general authorities.

**II. PURPOSE**

The purpose of this annex is to define the organization, operational concepts, responsibilities, and procedures necessary to accomplish direction and control for this jurisdiction. This annex describes our concept of operations and organization for direction and control of such operations and assigns responsibilities for tasks that must be carried out to perform the direction and control function.

**III. EXPLANATION OF TERMS**

DDC	Disaster District Committee
DHS	U.S. Department of Homeland Security
DPS	Department of Public Safety
DSHS	Department of State Health Services
EMC	Emergency Management Coordinator
EOC	Emergency Operations Center
FEMA	Federal Emergency Management Agency
IC	Incident Commander
ICP	Incident Command Post
ICS	Incident Command System
NIMS	National Incident Management System
NRF	National Response Framework
Sister City	Pre-identified reception sites in other State jurisdictions used for support of functional needs during City-wide evacuations
SOP/SOG	Standard Operating Procedures/Standard Operating Guidelines
TDEM	Texas Division of Emergency Management
TLETS	Texas Law Enforcement Telecommunications System
UC	Unified Command

**IV. SITUATION & ASSUMPTIONS**

**A. Situation**

1. Our community is vulnerable to many hazards, which threaten public health and safety and public or private property. See the general situation statement and hazard summary in Section IV.A of the Basic Plan.

2. Our direction and control organization must be able to activate quickly at any time day or night, operate around the clock, and deal effectively with emergency situations that may begin with a single response discipline and could expand to multidiscipline requiring effective cross-jurisdictional coordination. These emergency situations include:
  - a. Incident. An incident is a situation that is limited in scope and potential effects. Characteristics of an incident include:
    - 1) Involves a limited area and/or limited population.
    - 2) Evacuation or in-place sheltering is typically limited to the immediate area of the incident.
    - 3) Warning and public instructions are provided in the immediate area of the incident, not community-wide.
    - 4) Typically resolved by one or two local response agencies or departments acting under an incident commander or unified command.
    - 5) Requests for resource support are normally handled through agency and/or departmental channels.
    - 6) May require limited external assistance from other local response agencies, departments or contractors.
    - 7) For the purpose of the NRF, incidents include the full range of occurrences that require an emergency response to protect life or property.
  - b. Emergency. An emergency is a situation larger in scope and more severe in terms of actual or potential effects than an incident. Characteristics include:
    - 1) Involves a large area, significant population, or important facilities.
    - 2) May require implementation of large-scale evacuation or in-place sheltering and implementation of temporary shelter and mass care operations.
    - 3) May require community-wide warning and public instructions.
    - 4) Requires a sizable multi-agency response operating under an Incident Commander or Unified Command. The EOC may be activated.
    - 5) May require some external assistance from other local response agencies, contractors, and limited assistance from State or federal agencies.
    - 6) For the purposes of the NRF, an emergency (as defined by the Stafford Act) is "any occasion or instance for which, in the determination of the President, Federal assistance is needed to supplement State and local efforts and capabilities to save lives and to protect property and public health and safety, or to lessen or avert the threat of catastrophe in any part of the United States."
  - c. Disaster. A disaster involves the occurrence or threat of significant casualties and/or widespread property damage that is beyond the capability of the local government to handle with its organic resources. Characteristics include:
    - 1) Involves a large area, a sizable population, and/or important facilities.
    - 2) May require implementation of large-scale evacuation or in-place sheltering and implementation of temporary shelter and mass care operations.
    - 3) Requires community-wide warning and public instructions.
    - 4) Requires a response by most or all local response agencies. The EOC and one or more incident command posts (ICP) may be activated.

- 5) Requires significant external assistance from other local response agencies, departments, contractors, and extensive State or federal assistance.
  - 6) For the purposes of the NRF, a *major disaster* (as defined by the Stafford Act) is any catastrophe, regardless of the cause, which in the determination of the President causes damage of sufficient severity and magnitude to warrant major disaster federal assistance.
- d. Catastrophic Incident. For the purposes of the NRF, this term is used to describe any natural or manmade occurrence that results in extraordinary levels of mass casualties, property damage, or disruptions that severely affect the population, infrastructure, environment, economy, national morale, and/or government functions. An occurrence of this magnitude would result in sustained national impacts over prolonged periods of time, and would immediately overwhelm local and State capabilities.

## **B. Assumptions**

1. Many emergency situations occur with little or no warning. If warning is available, alerting the public, recommending suitable protective actions, taking preventative measures, and increasing the readiness of and deploying emergency response forces may lessen the impact of some emergency situations.
2. We will use our own resources to respond to emergency situations and, if needed, request external assistance from other jurisdictions pursuant to mutual aid agreements, and/or the State mutual aid system, or from the State. Since it takes time to summon external assistance, it is essential for us to be prepared to carry out the initial emergency response on an independent basis while maintaining continuity of government operations.
3. Emergency operations will be directed by local officials, except where state or federal law provides that a State or federal agency must or may take charge or where local responders lack the necessary expertise and equipment to cope with the incident and agree to permit those with the expertise and resources to take charge.
4. Effective direction and control requires suitable facilities, equipment, procedures, and trained personnel. Direction and control function facilities will be activated and staffed on a graduated/modular basis as needed to respond to the needs of specific situations.
5. Our city has adopted the National Incident Management System (NIMS) and we have implemented all of the NIMS procedures and protocols, which will allow us to effectively work with our mutual aid partners, and State and federal agencies during any type of incident response.
6. Duties and requirements identified for the IC also apply to the UC as applicable by ICS fundamentals.

<b>V. CONCEPT OF OPERATIONS</b>
---------------------------------

## **A. General**

1. Our direction and control structure for emergency operations is pursuant to the NIMS, which employs two levels of incident management structures.
  - a. The Incident Command System (ICS) includes a core set of concepts, principles, and terminology applicable to single or multiple incidents regardless of their scope.
  - b. Multiagency Coordination Systems integrate a combination of facilities, equipment, personnel, procedures, and communications into a common framework, which allows for the coordination and support of incident management.
2. An Incident Commander (IC)/Unified Command (UC) using response resources from one or two departments or agencies, will normally handle emergency situations classified as incidents. The EOC will generally not be activated, although the Emergency Management Division may assist to facilitate extreme notifications and coordinate resources and support.
3. During major emergencies, disasters, or catastrophic incidents, a Multiagency Coordination System may be advisable. Central to this System is the Emergency Operations Center (EOC), which is the nucleus of all coordination of information and resources. The Incident Commander/Unified Command will manage and direct the on-scene response from the ICP. The EOC will mobilize and deploy resources for use by the Incident Commander, coordinate external resource and technical support, research problems, provide information to senior managers, disseminate emergency public information, and perform other tasks to support on-scene operations.
4. For some types of emergency situations, the EOC may be activated without activating an incident command operation. Such situations may include:
  - a. When a threat of hazardous conditions exists but those conditions have not yet impacted the local area. The EOC may accomplish initial response actions, such as mobilizing personnel and equipment and issuing precautionary warning to the public. When the hazard impacts, an ICP may be established, and direction and control of the response transitioned to the Incident Commander/Unified Command.
  - b. When the emergency situation does not have a specific impact site, but rather affects a wide portion of the local area, such as an ice storm.
5. For operational flexibility, both ICS and EOC operations may be sized according to the anticipated needs of the situation. The structure of ICS is specifically intended to provide a capability to expand and contract with the magnitude of the emergency situation and the resources committed to it. The EOC may also be activated on a graduated/modular basis.

## **B. Incident Command Operations**

1. The first local emergency responder to arrive at the scene of an emergency situation will serve as the Incident Commander until relieved by a more senior or more qualified individual. The Incident Commander will establish an ICP, provide an assessment of the

situation to local officials, identify response resources required, and direct the on-scene response from the ICP.

2. The Incident Commander is responsible for carrying out the ICS function of command – making operational decisions to manage the incident. The four other major management activities that form the basis of ICS are operations, planning, logistics, and finance/administration. For small-scale incidents, the Incident Commander and one or two individuals may perform all of these functions. For more serious emergency situations, individuals from various local departments or agencies or from external response organizations may be assigned to separate ICS staff sections charged with those functions. For these serious emergency situations, it is generally desirable to transition to a Unified Command with key departments/agencies with major responsibilities participating.
3. If the EOC has been activated, the Incident Commander/Unified Command shall provide periodic situation updates to the EOC.
4. In emergency situations where other jurisdictions or State or federal agencies are providing significant response resources or technical assistance, it is generally desirable to transition from the normal ICS structure to a Unified Area Command structure. This arrangement helps to ensure that all participating agencies are involved in developing objectives and strategies to deal with the emergency.

### **C. EOC Operations**

1. The EOC may be activated to monitor a potential emergency situation or to respond to or recover from an emergency situation that is occurring or has occurred. The EOC will be activated at a level necessary to carry out the tasks that must be performed. The level of activation may range from a situation monitoring operation with minimal staff; to a limited activation involving selected departmental representatives, to a full activation involving all departments, agencies, volunteer organizations, and liaison personnel.
2. The principal functions of the EOC are to:
  - a. Monitor potential threats and plan for contingencies.
  - b. Support on-scene response operations.
  - c. Receive, compile, and display data on the emergency situation and resource status and commitments as a basis for planning.
  - d. Analyze problems and formulate options for solving them.
  - e. Coordinate among local agencies and between the City of Beaumont and State and federal agencies, if required.
  - f. Develop and disseminate warnings and emergency public information.
  - g. Maintain situational awareness.
  - h. Prepare and disseminate periodic reports.

- i. Coordinate damage assessments activities and assess the health, public safety, local facilities, and the local economy.
- j. Request external assistance from other jurisdictions, volunteer organizations, businesses, or from the State.

#### **D. ICS - EOC INTERFACE**

1. When both an ICP and the EOC have been activated, it is essential to establish a division of responsibilities between the ICP and the EOC. A general division of responsibilities is outlined below. It is essential that a precise division of responsibilities be determined for specific emergency operations.
2. The IC/UC is generally responsible for field operations, including:
  - a. Isolating the scene.
  - b. Directing and controlling the on-scene response to the emergency situation and managing the emergency resources committed there.
  - c. Warning the population in the area of the incident and providing emergency instructions to them.
  - d. Determining and implementing protective measures (evacuation or in-place sheltering) for the population in the immediate area of the incident and for emergency responders at the scene.
  - e. Implementing traffic control arrangements in and around the incident scene.
  - f. Requesting additional resources from the EOC.
  - g. Keeping the EOC informed of the current situation at the incident site.
3. The EOC is generally responsible for:
  - a. Mobilizing and deploying resources to be employed by the IC/UC.
  - b. Issuing community-wide warning.
  - b. Issuing instructions and providing information to the general public.
  - c. Organizing and implementing large-scale evacuation and coordinating traffic control for such operations.
  - d. Organizing and implementing shelter and mass care arrangements for evacuees.
  - e. Requesting assistance from the State and other external sources.
  - f. NOTE: In a large-scale incident such as a hurricane, a citywide ICP may coordinate some of the duties normally relegated to the EOC in this section.

#### 4. Transition of Responsibilities

Provisions must be made for an orderly transition of responsibilities between the ICP and the EOC.

- a. From EOC to the ICP. In some situations the EOC may be operating to monitor a potential hazard and manage certain preparedness activities prior to establishment of an ICP. When an ICP is activated under these circumstances, it is essential that the IC/UC receive a detailed initial situation update from the EOC and be advised of any operational activities that are already in progress, resources available, and resources already committed.
- b. From the ICP to the EOC. When an incident command operation is concluded and the EOC continues to operate to manage residual response and recovery activities, it is essential that the IC/UC brief the EOC on any on-going tasks or operational issues that require follow-on action by the EOC staff.

#### 5. Extended EOC Operations

While an incident command operation is normally deactivated when the response to an emergency situation is complete, it may be necessary to continue activation of the EOC or a skeleton ICP into the initial part of the recovery phase of an emergency. In the recovery phase, the EOC or skeleton ICP may be staffed to compile damage assessments, assess long term needs, manage donations, monitor the restoration of utilities, oversee access control to damaged areas, and other tasks.

6. In some large-scale emergencies or disasters, emergency operations with different objectives may be conducted at geographically separated scenes, in which case it may be necessary to employ a Unified Area Command. In such situations, more than one incident command post may be established. In this situation occurs, it is particularly important that the allocation of resources to specific field operations be coordinated through the EOC.

### **E. Activities by Phases of Management**

#### 1. Mitigation

- a. Establish, equip, and maintain an EOC and an Alternate EOC.
- b. Identify required EOC staffing; see Tab B to Appendix 1.
- c. Prepare maintain maps, displays, databases, reference materials, and other information needed to support ICP and EOC operations.
- d. Identify and stock supplies needed for ICP and EOC operations.
- e. Develop and maintain procedures for activating, operating, and deactivating the EOC. See Appendix 1 and its tabs.
- f. Ensure standard remote backup of critical electronic files and information.

2. Preparedness
  - a. Identify department/agency/volunteer group representatives who will serve on the EOC staff and are qualified to serve in various ICP positions.
  - b. Pursuant to NIMS protocol, conduct/facilitate NIMS training for department/agency/volunteer group representatives who will staff the EOC and ICP.
  - c. Maintain maps, displays, databases, reference materials, and other information needed to support ICP and EOC operations
  - d. Test and maintain EOC and ICP equipment to ensure operational readiness.
  - e. Exercise the EOC and ICP at least once a year.
  - f. Maintain a resource management program that includes identifying, acquiring, allocating, and tracking resources.
3. Response
  - a. Activate an ICP and the EOC if necessary.
  - b. Conduct response operations.
  - c. Deactivate ICP and EOC when they are no longer needed.
4. Recovery
  - a. If necessary, continue EOC or a skeleton ICP activation to support recovery operations.
  - b. Deactivate EOC or skeleton ICP when situation permits.
  - c. Restock ICP and EOC supplies if necessary.
  - d. For major emergencies and disasters, conduct a review of emergency operations as a basis for updating plans, procedures, and training requirements.

<b>VI. ORGANIZATION &amp; ASSIGNMENT OF RESPONSIBILITIES</b>
--

**A. Organization**

1. Our normal emergency organization, described in Section VI.A of the Basic Plan, will carry out the direction and control function during emergency situations.
2. The organization of incident command operations will be pursuant to NIMS organizational principles. The specific organizational elements to be activated for an

emergency will be determined by the IC/UC based on the tasks that must be performed and the resources available for those tasks.

3. The organization of the EOC is depicted in Tab A to Appendix 1. The EOC may be activated on a graduated/modular basis. Department/agency/volunteer group EOC staffing requirements will be determined by the EMC and activated section Chiefs, based on the needs of the situation.

## **B. Assignment of Responsibilities**

All personnel assigned responsibilities in this plan are trained on NIMS concepts, procedures, and protocols.

1. The Mayor/Designee will:
  - a. Establish general policy guidance for emergency operations.
  - b. Direct that the EOC be partially or fully activated.
  - c. When appropriate, terminate EOC operations.
2. The EMC will:
  - a. Develop and maintain the EOC Staff Roster and EOC operating procedures.
  - b. Activate the EOC when requested or when the situation warrants.
  - c. Serve as an EOC Manager.
  - d. Advise the Mayor and City Manager on emergency management activities.
  - e. Coordinate resource and information support for emergency operations.
  - f. Coordinate emergency planning and impact assessment.
  - g. Coordinate analysis of emergency response and recovery problems and development of appropriate courses of action.
3. The IC/UC will:
  - a. Establish an ICP and direct and control emergency operations at the scene.
  - b. Determine the need for and implement public warning and protective actions at and in the vicinity of the incident site.
  - c. Provide periodic situation updates to the EOC, if that facility is activated.
  - d. Identify resource requirements to the EOC, if that facility is activated.
4. Departments/Agencies, and Volunteer Groups assigned responsibilities for ICP or EOC operations will:

- a. In coordination with the EMC, will Identify and train personnel to carry out required emergency functions at the ICP and the EOC.
- b. Provide personnel to staff the ICP and the EOC when those facilities are activated.
- c. Ensure that personnel participating in ICP and EOC operations are provided with the equipment, resource data, reference materials, and other work aids needed to accomplish their emergency functions.

<b>VII. DIRECTION &amp; CONTROL</b>
-------------------------------------

**A. General.** The Mayor will provide general guidance for the direction and control function, pursuant to NIMS protocols.

**B. Incident Command Operations.** The first responder on the scene will take charge and serve as the IC until relieved by a more senior or qualified individual or an individual designated by the Mayor or designee. An ICP will normally be established at the incident scene; the IC will direct and control response forces from that command post. Attachment 7 to our Basic Plan provides a detailed description of our incident management system.

**C. EOC Operations**

- 1. The Mayor or City Manager may order the EOC be activated. A decision to activate the EOC is typically made on the basis of staff recommendations.
- 2. The EMC may activate the EOC and will normally determine the level of EOC staffing required based upon the situation, and will also notify appropriate personnel to report to the EOC.
- 3. Any department director or agency head dealing with a significant health or safety issue that requires inter-agency/departmental coordination may request that the Mayor or EMC activate the EOC to provide a suitable facility to work the issue.
- 4. The EMC will serve as the EOC Manager.

<b>VIII. READINESS LEVELS</b>
-------------------------------

**A. Level 4--Normal Conditions**

See the mitigation and preparedness activities in sections V.E.1 and V.E.2.

**B. Level 3--Increased Readiness**

- 1. Check status of ICP/EOC equipment and repair or replace as needed.
- 2. Check status of ICP/EOC supplies and restock as needed.
- 3. Update ICP/EOC resource data.

4. Alert staffs, determine personnel availability, and update ICP/EOC staff call lists.
5. Consider limited activation of ICP/EOC to monitor situation.
6. Consider situation briefings for senior staff.

**C. Level 2-- High Readiness**

1. Update ICP/ EOC staffing requirements based on threat.
2. Determine specific ICP/EOC staff assignments and alert staff.
3. Monitor potential emergency situation and determine possible impact areas.
4. Update maps, charts, displays, and resource data.
5. Consider situation briefings for ICP/EOC staff.
6. Consider partial activation of ICP/EOC if this has not already been accomplished.
7. Check status of Alternate ICP/EOC and Mobile Command Post.
8. In large-scale events or incidents, staffing of the EOC and/or ICP may begin at this readiness level, as will coordination with neighboring jurisdictions, sister cities and transit/general population evacuation hub jurisdictions.

**D. Level 1-- Maximum Readiness**

1. Summon EOC and/or ICP staff and activate the necessary functions.
2. Monitor situation.
3. Update maps, charts, displays, and resource lists.
4. Arrange for food service if needed.
5. Determine possible hazard impact areas and potential hazard effects.
6. Conduct briefings for senior staff and ICP/EOC staff.
7. Formulate and implement precautionary measures to protect the public.
8. Coordinate with adjacent jurisdictions that may be affected.

<b>IX. ADMINISTRATION &amp; SUPPORT</b>
---

**A. Facilities & Equipment**

## 1. EOC

- a. The Emergency Management office and primary EOC are co-located at 700 Orleans and are maintained by the City of Beaumont.
- b. A full range of communications capabilities is available for conducting emergency operations:
- c. The EOC is equipped with backup power.

## 2. Alternate ICP/EOC

- a. Should the primary ICP/EOC become unusable, pre-established EOC will be used to manage emergency operations.
- b. A full range of communications capabilities are available at this facility similar to the primary facility.

## 3. Secondary Alternate ICP/EOC

- c. Should the first alternate EOC become unusable, tertiary alternative is available to manage emergency operations.
- d. Natural Gas powered generated power is available at this facility as well.

## 3. Mobile Command Post

- a. The Incident Command may request that the Mobile Command Post, operated and maintained by the Beaumont Police Department, be deployed for use as an on-scene command post.
- b. Communications capabilities of the Mobile Command Post include air cards, satellite TV, internet (from satellite and/or air card), satellite telephone, and e-fax. Direct hookup connections using landlines are prewired for analog fax and multi phone lines.

## **B. Records**

1. Activity Logs. The EOC shall maintain accurate logs recording key response activities, including:
  - a. Activation or deactivation of emergency facilities.
  - b. Emergency notifications to other local governments and to State and federal agencies.
  - c. Significant changes in the emergency situation.
  - d. Major commitments of resources or requests for additional resources from external sources.

- e. Issuance of protective action recommendations to the public.
- f. Evacuations.
- g. Casualties.
- h. Containment or termination of the incident.

All personnel should use the appropriate ICS forms for documentation. The Unit Log (ICS form 214) or an equivalent will be used to document personnel and unit activities. Any major incident, notification or event should be captured on the Major Event Log maintained by the Documentation Unit.

## 2. Communications & Message Logs

The EOC shall maintain a record of major events and key communications sent and received using the EOC Major Event Log (Tab F to Appendix 1).

## 3. Cost Information

- a. Incident Costs. All departments and agencies shall maintain records summarizing the use of personnel, equipment, and supplies during the response to day-to-day incidents to obtain an estimate of annual emergency response costs that can be used in preparing future department or agency budgets.
- b. Emergency or Disaster Costs. For major emergencies or disasters, all departments and agencies participating in the emergency response shall maintain detailed of costs for emergency operations to include:
  - 1) Personnel costs, especially overtime costs
  - 2) Operation costs
  - 3) Costs for leased or rented equipment
  - 4) Costs for contract services to support emergency operations
  - 5) Costs of specialized supplies expended for emergency operations

These records may be used to recover costs from the responsible party or insurers or as a basis for requesting reimbursement for certain allowable response and recovery costs from the State and/or federal government. The records will also be compiled and forwarded to the Documentation Unit regarding all disaster related expenses starting 24 hours after incident occurrence or EOC activation, or 0800 each morning during multi-day incident responses.

## C. Reports

### 1. Initial Emergency Report

An Initial Emergency Report should be prepared and disseminated for major emergencies and disasters where State assistance may be required. This short report is designed to provide basic information about an emergency situation. See Appendix 2 for the report format. This report is normally submitted by the EMC or designee.

## 2. Situation Report

For major emergencies and disasters where emergency response operations continue over an extended period, a Situation Report should be prepared and disseminated daily, or more often as applicable. This report is designed to keep the Disaster District, other jurisdictions providing resource support for emergency operations, and jurisdictions that may be affected by the emergency situation informed about the current status of operations. See Appendix 3 for the report format.

### D. Agreements & Contracts

Should our local resources prove to be inadequate during an emergency, requests will be made for assistance from other neighboring jurisdictions, other agencies, and industry in accordance with existing mutual aid agreements, contracts, or the State mutual aid system.

### E. ICP and EOC Security

1. Access to the ICP and EOC will be limited during activation. All staff members will sign in upon entry and wear their EOC staff card access badge or other clearly identifiable form of ID.
2. Individuals who are not members of the ICP and/or EOC staff will be identified and their reason for entering the ICP and/or EOC determined. ICP/EOC administrative staff will issue a visitor card access badge to those visitors with a valid need to enter the ICP/EOC, which will be surrendered upon departure.

### F. Media

Media relations will be conducted pursuant to the NIMS. See Annex I, Public Information.

## X. ANNEX DEVELOPMENT & MAINTENANCE

### A. Development

1. The **EMC**, in coordination with the City Manager is responsible for the development and maintenance of this annex.
2. The EMC is responsible for the development and maintenance of ICP/EOC Standard Operating Procedures.

### B. Maintenance.

This annex will be reviewed annually and updated in accordance with the schedule outlined in Section X of the Basic Plan.

## XI. REFERENCES

Appendix 2 ..... Initial Emergency Report

Appendix 3 ..... Situation Report

## EMERGENCY OPERATIONS CENTER

### 1. Organization & Staffing

- a. The general organization of the ICP and EOC during a full activation for emergency operations is depicted in Tab A to this appendix. For a partial activation of the ICP and/or EOC, only those staff members required to deal with a particular emergency situation will be summoned to the ICP and/or EOC.
- b. A sample EOC Staff Roster is provided in Tab B to this appendix. The EMC shall maintain and distribute a current ICP and EOC Staff Roster, including the names of ICP and EOC team members and contact information as available (such as office, cellular and home telephone numbers and pager numbers) for those individuals.

### 2. Facilities

- a. Procedures for activation and deactivating the ICP and/or EOC and alternate ICP/EOC are provided in Tab C.

### 3. EOC Operations

General operating guidelines for the ICP and EOC are provided in Tab D.

### 4. EOC Log

The Basic Plan requires that the ICP and EOC maintain accurate logs recording response activities, including:

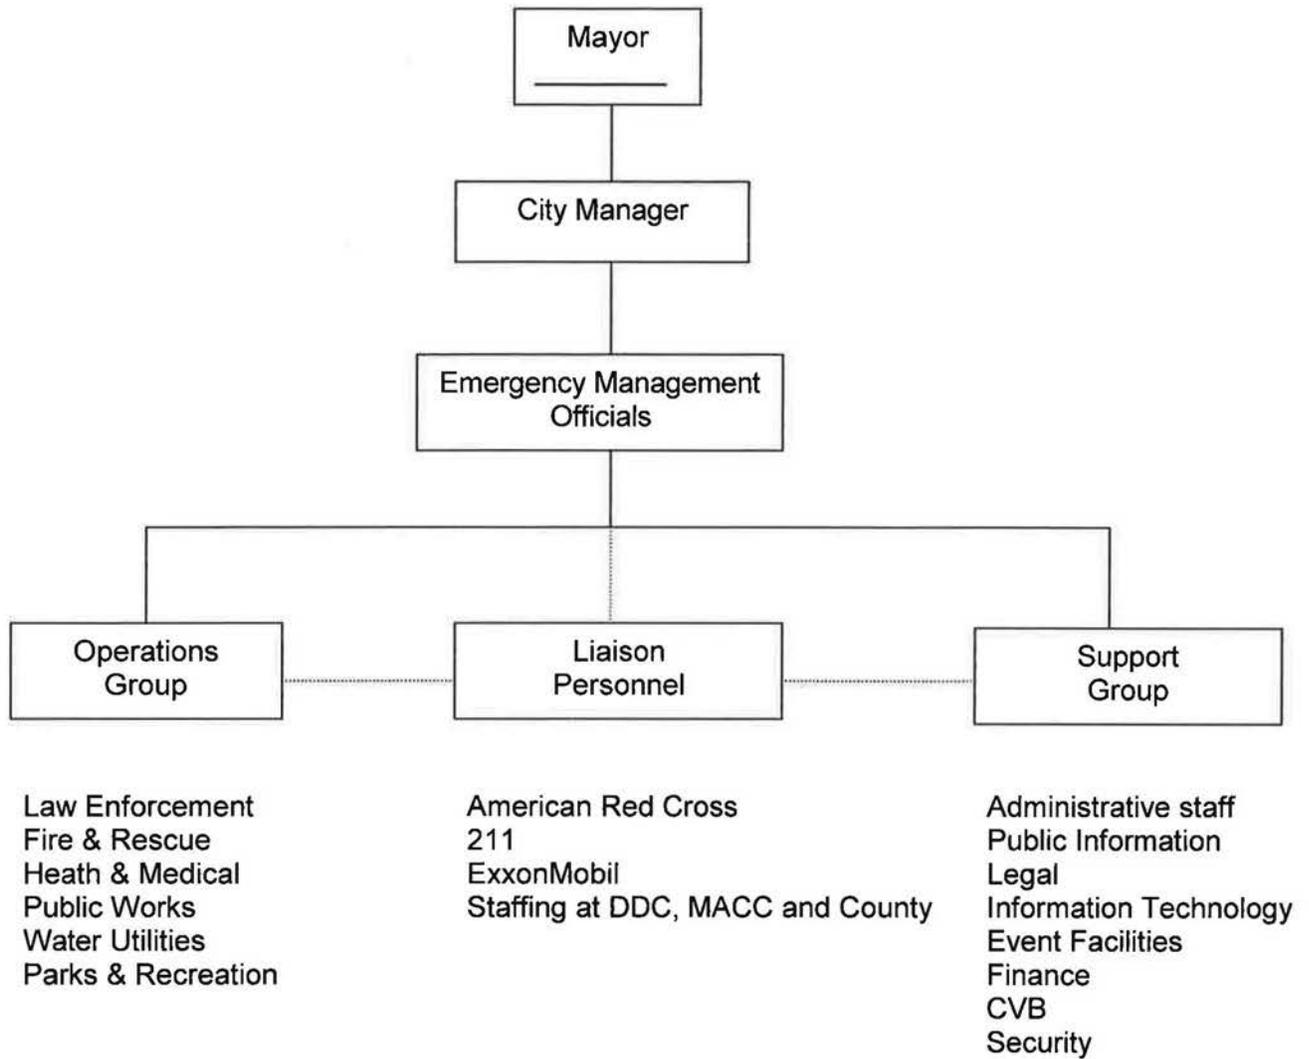

- a. Activation and deactivation of the ICP and/or EOC.
- b. Emergency notifications to other local governments and to state and federal agencies.
- c. Significant changes in the emergency situation.
- d. Major commitments of resources or requests for additional resources from external sources.
- e. Issuance of protective action recommendations to the public.
- f. Evacuations.
- g. Casualties.
- h. Containment or termination of an incident.

The EOC Log, provided in Tab E shall be used to record this information and other pertinent information.

## **5. Message Handling**

- a. All messages sent by or received in the EOC will be recorded in the EOC Message Log, a copy of which is provided in Tab F.
- b. Outgoing messages will normally be prepared on an EOC Message Form, which is also used to specify how the message should be sent and record the time of dispatch and message number. A copy of the form is provided in Tab G to this appendix. Typed messages may simply be attached to the form.
- c. Incoming verbal messages will be recorded on an EOC Info/Action Record, a copy of which is provided in Tab H to this appendix. For messages that require action, the form is used to assign responsibility for action to EOC staff members and to record the action taken.

## EOC ACTIVATION/DEACTIVATION

### 1. General

- a. The Mayor, City Manager or EMC may direct that the EOC be activated. A decision to activate the EOC is typically made on the basis of staff recommendations.
- b. The EMC will normally determine the level of EOC staffing required based upon the situation.
- c. The EMC is responsible for maintaining the EOC Staffing Roster and ensuring that appropriate EOC staff members are notified to report to the EOC in the event the facility is activated. If a large scale emergency leads to a citywide ICP activation, then the EMC is responsible for maintaining the ICP Staffing Roster and ensuring the appropriate ICP staff members are notified to report to the ICP in the event the City ICP facility is activated.

### 2. Activation Checklist

✓	Action

## EOC OPERATIONS

### Tab D

## EMERGENCY OPERATIONS

### 1. EOC Staff Responsibilities

#### A. The EOC Manager & Assistant

- 1) Monitor emergency operations and directs EOC operations.
- 2) Screen incoming messages, determines disposition and distribution.
- 3) Assign responsibility for responding to requests for resources or information or formulating options for solving problems to Staff Officers.
- 4) Review proposed options for solving problems and select and implement an appropriate course of action.
- 5) Approve outgoing messages and reports for release.
- 6) Make requests for external assistance or approve requests made by other members of the EOC staff.
- 7) Conduct periodic update briefings for the EOC staff and elected officials.

#### B. The EOC will normally be organized under ICS guidelines with appropriate duties assigned. Some or all of these functions may be performed by the Documentation Unit in the ICP in the event of a large-scale incident where a city-wide ICP is established. If EOC is organized in certain events or incidents, on a functional basis, then the following assignments may be used.

##### 1) Logger

- a) Numbers and records all incoming & outgoing messages.
- b) Records all messages in the EOC Message Log (Tab G to Appendix 1)
- c) Maintains the required documentation log.

##### 2) Distribution Clerk

- a) Picks up incoming messages from Communications and delivers to EOC Supervisor.
- b) Delivers outgoing message traffic to Communications.
- c) Reproduces and distributes messages and other materials within the EOC.
- d) Maintains a file of original incoming and outgoing messages.

##### 3) Poster/Plotter(s)

- a) Posts incident information on EOC display boards, other than those maintained by Action Officers.
- b) Plots incident information on EOC maps.
- c) Assists the Distribution Clerk.

##### 4) Writer

- a) At the direction of the EOC Manager, records key events in the EOC Log (Tab F to Appendix 1).
- b) Prepares EOC reports.

- c) Prepares outgoing messages that require typing.
- d) Assists the Distribution Clerk and the Logger.

#### C. Staff Officers

Staff Officers include department directors and/or agency representatives that compose the Operations Group and the Support Group, as well as liaison personnel.

- 1) Have knowledge of their organizational resources and expertise in their use.
- 2) Forward and respond to requests for emergency resources or information from their department, agency, or group, coordinating as necessary with their parent organization.
- 3) Receive emergency information and enter it into the EOC information system.
- 4) Work with other Staff Officers to resolve problems that require multi-agency action.
- 5) Maintain pertinent display boards and maps.

#### D. Public Information Staff

- 1) Develops and disseminates appropriate emergency public information through news releases, briefings, and, where appropriate, emergency information systems.
- 2) Handles media inquiries.

### 2. Information Flow

#### A. Incoming Messages

- 1) Record Traffic. Incoming messages and faxes will be delivered to Logger for assignment of a message number and then placed in the respectively marked incoming or outgoing message tray.
- 2) Verbal Messages. Incoming verbal messages may be received by anyone on the EOC staff. The substance of calls which request resources or information, provide information relating to the emergency situation, or are otherwise pertinent to EOC operations will be recorded by the individual receiving the verbal message on an Emergency Action Record (Tab I to Appendix 1), which will be delivered to the Logger for assignment of a message number and then to the EOC Supervisor or Deputy for review.

#### B. Screening Messages.

- 1) The EOC Manager or Deputy shall screen incoming traffic and determine how it is to be handled. Messages typically fall into two categories: (a) those that provide information about an emergency and (b) those that request resource support or information or identify problems and, thus require action.
- 2) For messages that provide information only, the EOC Manager or Deputy will indicate whether the information should be posted on display boards or plotted on map boards by checking the appropriate block on EOC forms or hand stamping a Disposition box on other types of messages. The EOC Manager or Deputy shall also indicate the distribution of each message in the approximate block. The EOC Manager or Deputy may also highlight information in messages that is to be included

in the periodic Situation Report. All messages that are received will be logged, but messages that are not pertinent to the emergency situation will not be distributed.

- 3) The Distribution Clerk will retain originals of all messages.

#### C. Outgoing Messages

- 1) Any member of the staff may draft outgoing messages. Messages will be forwarded to the EOC Manager or Deputy for review. If necessary, the Writer will type the final copy of an outgoing message and provide it to the EOC Manager for approval. The EOC Manager or Deputy will provide the approved message to the Distribution Clerk for dispatch.
- 2) Outgoing calls by any staff member, which deal with matters of interest to other members of the EOC staff, should be summarized on an Emergency Action Record (Tab I to Appendix 1) and provided to the EOC Manager or Deputy, who will determine further distribution requirements.

#### D. Exchange of Information

- 1) All Staff Officers are expected to keep the EOC Manager or Deputy advised, either verbally or by a note, of important information relating to emergency operations they receive and significant response or recovery issues they identify.
- 2) Staff Officers who receive information that may affect the conduct of other emergency functions are expected to provide that information to Staff Officers responsible for those functions in a timely manner.

### 3. Task Response & Problem Solving

A. The EOC Manager or Deputy will assign responsibility to specific Staff Officers for responding to requests for resources or information or for formulating solutions to emergency response and recovery problems. Tasks will normally be assigned using the Emergency Info/Action Record form; pertinent messages or information may be attached to the form.

#### B. Task Response

- 1) Staff Officers assigned tasks to provide resources or information are expected to complete the required action and close out the tasking by completing the Action Taken block at the bottom of the Emergency Info/Action Records and returning the form to the EOC Manager or Deputy.
- 2) Staff Officers are expected to complete the specific task assigned as well as any other tasks implied in the original tasking. For example, if the Shelter & Mass Care Staff Officer is given the task of obtaining 400 cots for a shelter, the task includes the explicit task of locating the cots and the implicit task of getting them transported from wherever they are to the shelter. To complete the implicit task, the Shelter and Mass Care Staff Officer may have to coordinate with the Transportation Staff Officer to arrange transportation if the supplier of the cots cannot do so.

- 3) If requests for resources or information cannot be satisfied locally, the Staff Officer should advise the EOC Manager or Deputy forthwith and identify possible external sources for the resources or information.
- 4) When responding to requests for resources, it is always advisable for Staff Officers to coordinate with the requestor to confirm specific requirements and coordinate the delivery time and location. Requestors should always be advised of the disposition of their requests.
- 5) For tasks that will take some time to complete, Staff Officers should provide interim progress reports to the EOC Manager or Deputy.

**C. Problem Solving**

- 1) The EOC Manager or Deputy may refer specific response or recovery problems or issues to a Staff Officer or a group of Staff Officers for consideration. The EOC Manager or Deputy will normally indicate whether he wants either a preferred solution or a range of options to consider.
- 2) In developing a preferred solution or range of options to solve a problem, Staff Officers assigned primary responsibility for the task should coordinate with other Staff Officers who have pertinent expertise and, where appropriate, with external agencies, organizations and groups for assistance. When a range of options is required, it is desirable that those options be prioritized.

**4. Status Boards & Maps**

**A. The following EOC status boards will be maintained by staff members indicated or the Situational Unit:**

- 1) Current Situation board: Poster/Plotter
- 2) Evacuation Status board: Fire/Rescue
- 3) Shelter & Mass Care Status board: Shelter & Mass Care
- 4) Resource Commitments board: Resource Manager
- 5) Points of Contact board: Deputy EOC Supervisor
- 6) Route Status board: Law Enforcement
- 7) Damage Summary board: EMC, Asst. EMC, situation unit leader or damage assessment officer.

**B. The following EOC maps will be maintained by the staff members indicated, or the situation unit:**

- 1) Current Situation map: Poster/Plotter
- 2) Traffic Control map: Law Enforcement
- 3) Hazmat Facilities/Risk Areas map: Fire Service
- 4) Special Facilities map: Fire Service
- 5) Hurricane/Flood Risk map: EMC or Asst. EMC

**5. Reports**

- A. When the EOC is activated for a major emergency or disaster for which external assistance may be required, the EOC Manager or Deputy will instruct the Writer to prepare an Initial Emergency Report. See Appendix 2 for the format of and addresses for this report.
- B. The Writer will prepare the periodic Situation Report, with guidance on report content provided by the EOC Manager or Deputy. See Appendix 3 for the format of and addressees for this report. The report should be issued at least daily; more frequent reports may appropriate, particularly when circumstances change dramatically. The target time for release of daily reports is 11:00 AM.

## **6. Briefings**

- A. Situation Update Briefings. The EOC Manager or Deputy shall conduct periodic informal situation update briefings for the EOC staff, recapping the current situation and highlighting ongoing actions and issues to be resolved. Briefings shall be kept short so they will not disrupt ongoing EOC operations.
- B. Shift Change Briefing. Outgoing EOC team members shall conduct an individual face-to-face turnover briefing to update their replacement on recent and ongoing emergency operations. Such briefings shall always include a detailed review of any tasks in progress or awaiting action that arriving personnel must monitor or complete.
- C. Media Briefings. The Public Information staff shall schedule and conduct briefings for the media as needed. To preclude disruption of EOC operations, media briefings will not be conducted in the primary EOC work area.

## **7. EOC Security**

- A. The primary and alternate ICP/EOCs are protected by card access entry control. Difficulties with card access should be directed to the EMC, deputy or support staff. All staff members will wear their EOC Staff badges while in the facility. Staff are still required to sign in and out.
- B. Visitors to the ICP and/or EOC will be identified and their business determined before being admitted to the ICP and/or EOC. Visitors with a valid need to enter the facility will sign in on the Visitor Log and be provided with an temporary access card.

**INITIAL EMERGENCY REPORT****1. PURPOSE**

The purpose of this report is to advise the State (through the local Disaster District), nearby jurisdictions that may be affected, and jurisdictions that may provide resources under a mutual aid agreement of an incident that has the potential to become a major emergency or disaster. An Initial Incident Report should be dispatched as soon as it becomes apparent that an incident has the potential to become a serious emergency situation. The report should be sent in written form (such as TLETS teletype or facsimile) if possible. If this is infeasible, a verbal report should be made by telephone or radio.

- g. POINT OF CONTACT INFORMATION: Joe Jones, EMC, 555-1222.

## SITUATION REPORT

### 1. PURPOSE

The purpose of this report is to advise the State (through the local Disaster District), nearby jurisdictions that may be affected, and jurisdictions that are providing resources under a mutual aid agreement of the status on an ongoing major emergency situation. It may also be useful to provide this report to local officials who are not working at the EOC to keep them informed of the situation. A Situation Report should be prepared and disseminated at least once a day. The report should be sent in written form (such as TLETS teletype, facsimile, or e-mail).
