Confirmed Cases by Age Range

A message from Mayor Becky Ames, April 29, 2020:

A Covid-19 update was provided at our City Council meeting yesterday. Sherry Ulmer, Health Director for the City of Beaumont, provided an informative update on a number of different Covid-19 related topics. One topic of discussion included that we have not yet seen a plateau in Covid-19 positive cases in Beaumont. As a result, we must remain vigilant and continue to practice social distancing and other safe practices including washing your hands for 20 seconds at a time often along with using hand sanitizer.

* The accuracy of the Status of COVID-Test is dependent upon the availability of data received from participating agencies and healthcare providers as well as when it was received with respect to; Total Tested, Pending Results and Negative.
