Status of Confirmed Cases

Confirmed Cases by Age Range

Please see next page for further data and a message from Mayor Becky Ames.

* The accuracy of the Status of COVID-Test is dependent upon the availability of data received from participating agencies and healthcare providers as well as when it was received with respect to; Total Tested, Pending Results and Negative.

Daily Confirmed Cases by Date of Collection

****Disclaimer:** This is the official data collected by the City of Beaumont Public Health. The data being reflected on this graph is only valid as the number of participating healthcare providers and collection sites, and the accuracy of the data reported. All data used for planning purposes. There is a delay from the date of collection to when results are received by the Beaumont Public Health Department. Updates to the data are made daily by 4:00 PM.

A message from Mayor Becky Ames, May 22, 2020:

We had a total of 195 people tested for Covid-19 at our City of Beaumont testing site this week. The site operated Tuesday, Wednesday, and Thursday of this week at the old Fire station 1 building on College Street. We would like to thank our partners at Riceland Healthcare for helping us make this happen. We would also like to thank all of our partners in Beaumont for their efforts in testing our citizens in the Beaumont area. Please call 409-550-2536, and then press 1, if you live in the Beaumont area and wish to be tested for Covid-19.
