Status* of COVID-Test

Status of Confirmed Cases

Confirmed Cases by Age Range

Please see next page for further data and a message from Mayor Becky Ames

* The accuracy of the Status of COVID-Test is dependent upon the availability of data received from participating agencies and healthcare providers as well as when it was received with respect to; Total Tested, Pending Results and Negative.

Daily Confirmed Cases by Date of Collection

****Disclaimer:** This is the official data collected by the City of Beaumont Public Health. The data being reflected on this graph is only valid as the number of participating healthcare providers and collection sites, and the accuracy of the data reported. All data used for planning purposes. There is a delay from the date of collection to when results are received by the Beaumont Public Health Department. Updates to the data are made daily by 4:00 PM.

A message from Mayor Becky Ames, July 9, 2020:

The “pending results” section is only updated in this report when Beaumont Public Health receives demographic information of the individuals tested from the testing providers prior to having the test results. This information is not always immediately available as most providers only send us the bulk of the demographic information once they receive test results. In situations where the City operates the collection sites, we are able to obtain the demographic information and our data is updated to reflect it immediately.
