**\*\*Disclaimer:** This is the official data collected by the City of Beaumont Public Health. The data being reflected on this graph is only valid as the number of participating healthcare providers and collection sites, and the accuracy of the data reported. All data used for planning purposes. There is a delay from the date of collection to when results are received by the Beaumont Public Health Department. Updates to the data are made daily by 4:00 PM.

## A message from Mayor Becky Ames, August 20, 2020:

- If you haven't already done so, please read through Governor Abbott's Executive Order No. 29 related to the use of face coverings during the COVID-19 disaster. The fourth paragraph of the second page of the order highlights the following "Every person in Texas shall wear a face covering over the nose and mouth when inside a commercial entity or other building or space open to the public, or when in an outdoor public space, wherever it is not feasible to maintain six feet of social distancing from another person not in the same household." There is also a list of exclusions following this statement in the order and I would encourage you to read those as well. Additionally, the Centers for Disease Control has a variety of new information on their website about face coverings. They provided the following: "The spread of COVID-19 can be reduced when masks are used along with other preventative measures, including social distancing, frequent handwashing, and cleaning and disinfecting frequently touched surfaces."

(Continued on next page)

- **Private facilities that we know of that are performing covid-19 tests in Beaumont:**
  - MedExpress- 3565 College
