All data used for planning purposes. There is a delay from the date of collection to when results are received by the Beaumont Public Health Department. Updates to the data are made daily by 4:00 PM.

A message from Mayor Becky Ames, September 16, 2020:

FLU ALERT

Influenza (Flu) and COVID-19 are both contagious respiratory illnesses, but they are caused by different viruses. COVID-19 is caused by infection with a new coronavirus (called SARS-CoV-2) and flu is caused by infection with influenza viruses. Because some of the symptoms of flu and COVID-19 are similar, it may be hard to tell the difference between them based on symptoms alone. Testing may be needed to help confirm a diagnosis. Flu season starts October 1st. It is important that everyone 6 months of age and older get a flu shot especially this year. The time to get your flu shot is now prior to the start of the flu season!

Private facilities that we know of that are performing covid-19 tests in Beaumont:

Persons who test positive for Covid-19 are encouraged to purchase a pulse oximeter to monitor their oxygen saturation. For a reading of 93, persons are encouraged to notify their physician. If the oxygen level drops below 92, persons are encouraged to seek medical attention immediately. Pulse oximeters are available for about \$25.00 on Amazon.com.

· Your plasma could be a key to the cure of Covid-19. If you have recovered from or have been in contact with anyone who had Covid-19, you can contact Telice Terro, Baptist Hospital Research RN @ 409-212-5979 or email CP@harborhcs.com to donate your plasma.

COVID-19 AWARENESS

*Pulse Ox Meter
measures your
oxygen saturation
in blood*

Average cost \$25

"I encourage you to purchase a pulse ox to monitor your oxygen saturation. If this level drops below 92 please seek medical attention immediately."

Qamar Arfeen, MD, FCCP
Pulmonary & Critical Care
Lead Intensivist of Baptist COVID-19 Unit
