Status* of COVID-Test

Status of Confirmed Cases

Confirmed Cases by Age Range

DISCLAIMER: * The accuracy of the Status of COVID-Test is dependent upon the availability of data received from participating agencies and healthcare providers as well as when it was received with respect to; Total Tested, Pending Results and Negative. Recovered - release of individual from self-isolation/quarantine as defined by CDC guidelines.

Daily Confirmed Cases by Date of Collection

****Disclaimer:** This is the official data collected by the City of Beaumont Public Health. The data being reflected on this graph is only valid as the number of participating healthcare providers and collection sites, and the accuracy of the data reported. All data used for planning purposes. There is a delay from the date of collection to when results are received by the Beaumont Public Health Department. Updates to the data are made daily by 4:00 PM.

A message from Mayor Becky Ames, January 21, 2021:

- We have requested and are working towards securing COVID-19 vaccinations from the state. We have prepared the Civic Center to administer the vaccine to the public. Please do not go to the Civic Center to request the vaccine, as we do not have the vaccines at this time. We will release further information once we receive it regarding how to sign up for the vaccine.
- Please see the attached flyer regarding a new COVID-19 testing kiosk located at Lamar University. The testing kiosk is available at no charge but you will need to make an appointment using this link: <https://curative.com/sites/22753#9/30.0373/-94.0687>
- Private facilities that we know of that are performing COVID-19 tests in Beaumont:
 - MedExpress- 3565 College

 - Christus Promptu Care- 4046 Dowlen
 - People's Urgent Care- 3255 N. Major Drive
 - Beaumont Urgent Care- 3650 N. Major Drive
- Persons who test positive for COVID-19 are encouraged to purchase a pulse oximeter to monitor their oxygen saturation. For a reading of 93, persons are encouraged to notify their physician. If the oxygen level drops below 92, persons are encouraged to seek medical attention immediately. Pulse oximeters are available for about \$25.00 on Amazon.com.
- Your plasma could be a key to the cure of COVID-19. If you have recovered from or have been in contact with anyone who had COVID-19, you can contact Telice Terro, Baptist Hospital Research RN @ 409-212-5979 or email CP@harborhcs.com to donate your plasma.

Please see next page for further data and a message from Mayor Becky Ames.

COVID-19 AWARENESS

*Pulse Ox Meter
measures your
oxygen saturation
in blood*

Average cost \$25

"I encourage you to purchase a pulse ox to monitor your oxygen saturation. If this level drops below 92 please seek medical attention immediately."

Qamar Arfeen, MD, FCCP
Pulmonary & Critical Care
Lead Intensivist of Baptist COVID-19 Unit

COVID-19 TESTING

**Lamar University Campus
Parking Lot of the Montagne Center
Opening on Tuesday, January 19 at 8am**

A COVID-19 testing site
at **NO** cost to patients.

CURATIVE kiosks open to the community
Monday-Friday 8a-5p

Curative oral swab testing has a 90% accuracy rate, meaning the test will correctly return a positive result for 90% of people who have the disease and will return a negative result — a false-negative — for 10% of the people who have the disease and should have tested positive. By way of comparison, the nasal swab test is typically 80% accurate.

Make an appointment at LU's Curative testing
