### Confirmed Cases by Age Range

DISCLAIMER: \* The accuracy of the Status of COVID-Test is dependent upon the availability of data received from participating agencies and healthcare providers as well as when it was received with respect to; Total Tested, Pending Results and Negative. Recovered - release of individual from self-isolation/quarantine as defined by CDC guidelines.

# Daily Confirmed Cases by Date of Collection

**\*\*Disclaimer:** This is the official data collected by the City of Beaumont Public Health. The data being reflected on this graph is only valid as the number of participating healthcare providers and collection sites, and the accuracy of the data reported. All data used for planning purposes. There is a delay from the date of collection to when results are received by the Beaumont Public Health Department. Updates to the data are made daily by 4:00 PM.

## **A message from Mayor Becky Ames, February 9, 2021**

- **When the local Public Health Departments receive vaccines they will be administered by appointment only. Do not show up at any vaccination site until you have received a confirmed appointment time from the Public Health Department. No one will be served without an appointment. Anyone who previously left their name on the waitlist needs to complete their registration on this site. If you were placed on the wait list through 311, you must complete the online registration to confirm your interest. 311 is no longer taking names and phone numbers. Although currently vaccinations are for Phase 1A and 1B eligible populations, you may register at this time for future. Vaccine Registration is now available online at [vaccine.beaumonttexas.gov](https://vaccine.beaumonttexas.gov). Scheduling will be done at a later time once vaccinations become available. If you are unable to access the website, call centers have been established at 409-550-2536 for further assistance. This covers citizens in Hardin, Jefferson, Jasper, Newton, and Orange counties. Call center assistance will be available Monday through Friday, 8am to 5pm.**
- **Please see the attached flyer regarding a new COVID-19 testing kiosk located at Lamar University. The testing kiosk is available at no charge but you will need to make an appointment using this link:**  
**<https://curative.com/sites/22753#9/30.0373/-94.0687>**

- **Persons who test positive for COVID-19 are encouraged to purchase a pulse oximeter to monitor their oxygen saturation. For a reading of 93, persons are encouraged to notify their physician. If the oxygen level drops below 92, persons are encouraged to seek medical attention immediately. Pulse oximeters are available for about \$25.00 on Amazon.com.**
- **Your plasma could be a key to the cure of COVID-19. If you have recovered from or have been in contact with anyone who had COVID-19, you can contact Telice Terro, Baptist Hospital Research RN @ 409-212-**

5979 or email [CP@harborhcs.com](mailto:CP@harborhcs.com) to donate your plasma.

# COVID-19 AWARENESS

*Pulse Ox Meter  
measures your  
oxygen saturation  
in blood*

Average cost \$25

**"I encourage you to purchase a pulse ox to monitor your oxygen saturation. If this level drops below 92 please seek medical attention immediately."**

Qamar Arfeen, MD, FCCP  
Pulmonary & Critical Care  
Lead Intensivist of Baptist COVID-19 Unit

COVID-19 TESTING

**Lamar University Campus  
Parking Lot of the Montagne Center  
Opening on Tuesday, January 19 at 8am**

A COVID-19 testing site  
at **NO** cost to patients.  
CURATIVE kiosks open to the community  
Monday-Friday 8a-5p

Curative oral swab testing has a 90% accuracy rate, meaning the test will correctly return a positive result for 90% of people who have the disease and will return a negative result — a false-negative — for 10% of the people who have the disease and should have tested positive. By way of comparison, the nasal swab test is typically 80% accurate.

**Make an appointment at LU's Curative testing**
