Status* of COVID-Test

Status of Confirmed Cases

Confirmed Cases by Age Range

Please see next page for further information and a message from Mayor Becky Ames.

DISCLAIMER: * The accuracy of the Status of COVID-Test is dependent upon the availability of data received from participating agencies and healthcare providers as well as when it was received with respect to; Total Tested, Pending Results and Negative. Recovered - release of individual from self-isolation/quarantine as defined by CDC guidelines.

A message from Mayor Becky Ames, March 10, 2021:

- A Mobile COVID-19 vaccination site is in Jefferson County this week and next week as well. They are providing vaccinations March 11 at First Baptist Church in Hamshire, located at 25304 Highway 124, as well as on March 16 at First Baptist Church in Nome, located at 1985 Louisiana Street. Please call 409-554-6360 for an appointment. You must have an appointment to be vaccinated.
- The Beaumont Public Health Department is administering COVID-19 vaccinations by appointment only. You must be registered to receive an appointment.

Eligible Populations:

Phase 1A and 1B

Vaccine Registration and self-scheduling are now available online at vaccine.beaumonttexas.gov. If you are unable to access the website, call centers have been established at 409-550-2536 for further assistance. This covers citizens in Hardin, Jefferson, Jasper, Newton, and Orange counties. Call center assistance will be available Monday through Friday, 8am to 5pm.

- Please see the attached flyer regarding a new COVID-19 testing kiosk located at Lamar University. The testing kiosk is available at no charge but you will need to make an appointment using this link:

<https://curative.com/sites/22753#9/30.0373/-94.0687>

COVID-19 TESTING

**Lamar University Campus
Parking Lot of the Montagne Center
Opening on Tuesday, January 19 at 8am**

A COVID-19 testing site
at **NO** cost to patients.

CURATIVE kiosks open to the community
Monday-Friday 8a-5p

Curative oral swab testing has a 90% accuracy rate, meaning the test will correctly return a positive result for 90% of people who have the disease and will return a negative result — a false-negative — for 10% of the people who have the disease and should have tested positive. By way of comparison, the nasal swab test is typically 80% accurate.

[Make an appointment at LU's Curative testing](#)

- Persons who test positive for COVID-19 are encouraged to purchase a pulse oximeter to monitor their oxygen saturation. For a reading of 93, persons are encouraged to notify their physician. If the oxygen level drops below 92, persons are encouraged to seek medical attention immediately. Pulse oximeters are available for about \$25.00 on Amazon.com.
- Your plasma could be a key to the cure of COVID-19. If you have recovered from or have been in contact with anyone who had COVID-19, you can contact Telice Terro, Baptist Hospital Research RN @ 409-212-5979 or email CP@harborhcs.com to donate your plasma.

COVID-19 AWARENESS

*Pulse Ox Meter
measures your
oxygen saturation
in blood*

Average cost \$25

"I encourage you to purchase a pulse ox to monitor your oxygen saturation. If this level drops below 92 please seek medical attention immediately."
