Recovered - release of individual from self-isolation/quarantine as defined by CDC guidelines.

## A message from Mayor Becky Ames, March 3, 2021:

- Yesterday, Governor Greg Abbott released a new executive order which relates to the opening of Texas in response to the COVID-19 disaster. He details that on March 10, 2021, COVID-19 related operating limits for any business or other establishments will cease in all counties not in an area with high hospitalizations. Governor Abbott also adds that individuals are strongly encouraged to wear face coverings over the nose and mouth wherever it is not feasible to maintain six feet of social distancing from another person not in the same household. Additionally, he notes that no person may be required by any jurisdiction to wear or to mandate the wearing of a face covering. You can access the full order here: <https://lrl.texas.gov/legLeaders/governors/displayDocs.cfm?govdoctypeID=5&governorID=45>
- The Beaumont Public Health Department is administering COVID-19 vaccinations by appointment only. You must be registered to receive an appointment.  
Eligible Populations:  
Phase 1A and 1B  
Vaccine Registration and self-scheduling are now available online at [vaccine.beaumonttexas.gov](http://vaccine.beaumonttexas.gov). If you are unable to access the website, call centers have been established at 409-550-2536 for further assistance. This covers citizens in Hardin, Jefferson, Jasper, Newton, and Orange counties. Call center assistance will be available Monday through Friday, 8am to 5pm.
- Please see the attached flyer regarding a new COVID-19 testing kiosk located at Lamar University. The testing kiosk is available at no charge but you will need to make an appointment using this link: <https://curative.com/sites/22753#9/30.0373/-94.0687>

 **CURATIVE**  
COVID-19 TESTING  
**Lamar University Campus**  
**Parking Lot of the Montagne Center**  
**Opening on Tuesday, January 19 at 8am**

A COVID-19 testing site  
at **NO** cost to patients.  
CURATIVE kiosks open to the community  
Monday-Friday 8a-5p

Curative oral swab testing has a 90% accuracy rate, meaning the test will correctly return a positive result for 90% of people who have the disease and will return a negative result — a false-negative — for 10% of the people who have the disease and should have tested positive. By way of comparison, the nasal swab test is typically 80% accurate.

**Make an appointment at LU's Curative testing**
