

City of Beaumont

November 9, 2021

Dear Mayor and City Council:

Effective between March 31, 2022 and April 30, 2022, I plan to retire from the City of Beaumont.

Being the City Manager for more than 19 years has been an honor and a great privilege. Working with many different elected councils, I have been the longest serving City Manager in the City's history. We have accomplished a tremendous amount over this period for which we can all be proud. Highlights include the Calder Avenue Project; the Event Centre; Lakeside Center; Washington Boulevard reconstruction; numerous other street and drainage projects citywide; park improvements citywide including new community centers; downtown infrastructure upgrades; illuminated traffic signage; and strong recoveries from more than four major storms.

I am most proud of the excellent group of department directors and key staff that we have. They are smart, conscientious and effective at what they do. Additionally, the City has been and continues to be in excellent financial condition.

Thank you for your support over the years. The City of Beaumont is a great place to work and I wish all of you and this great city much future success.

Sincerely,

Kyle Hayes

City Manager
